

## EKA H1 Holster

- The H1 belt holster was specially developed for the Bonowi EKA CAMLOCK baton and can accommodate the baton with the Defense Adapter (Item No.EKADFA –sold separately).
- The holster can be locked into 6 positions and rotated 180 degrees. Is suitable for both right, and left handed draw.
- The EKA CAMLOCK baton can be locked in the H1 holster by the baton tip lock system, so that it will expand and deploy when drawn vertically.
- To remove the baton out of the holster without expansion, draw baton down and away.
- The holster features an impact ring for breaking glass that is screwed onto the holster base (see figures below) and can be mounted on the EKA CAMLOCK baton tip.
- The impact ring is mounted on the EKA CAMLOCK baton without any tool. For removal, the holster includes a hexagonal tool integrated into the H1 Holster.
